# Find the Error

Grade 1 · 1.OA.1

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Jake has 12 stickers. He gets 5 more. How many now? Student's answer: 7

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student subtracted, but Jake got more stickers, so we add.**

Correct answer: **17 stickers (12 + 5 = 17)**

# Find the Error

Grade 1 · 1.OA.1

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Maya had 15 crayons. She gave 6 away. How many are left? Student's answer: 21

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added, but Maya gave crayons away, so we subtract.**

Correct answer: **9 crayons (15 - 6 = 9)**

# Find the Error

Grade 1 · 1.OA.1

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

8 kids sit on a bench and 9 kids sit on the grass. How many in all? Student's answer: 1

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student subtracted, but the groups are put together, so we add.**

Correct answer: **17 kids (8 + 9 = 17)**

# Find the Error

Grade 1 · 1.OA.2

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Kai has 4, 6, and 5 stickers in 3 packs. How many in all? Student's answer: 14

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student made an addition error. 4 + 6 + 5 is 15.**

Correct answer: **15 stickers**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

3 + 7 + 6 = ? Student's answer: 15

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student counted wrong. 3 + 7 is 10, and 10 + 6 is 16.**

Correct answer: **16**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

2 + 8 + 5 = ? Student's answer: 12

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 2 instead of 5 at the end. 10 + 5 is 15.**

Correct answer: **15**

# Find the Error

Grade 1 · 1.OA.3

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Student says 4 + 8 = 12, but 8 + 4 = 11. Is this right?

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student made an addition error. Changing the order of addends does not change the sum. 8 + 4 is also 12.**

Correct answer: **No. 8 + 4 = 12, the same as 4 + 8.**

# Find the Error

Grade 1 · 1.OA.3

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Student says 5 + 9 is different from 9 + 5 because the numbers switched. Is this right?

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student thought switching numbers changes the total. The commutative property says both orders give the same sum.**

Correct answer: **No. Both equal 14.**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Student says 8 - 2 is the same as 2 - 8. Is this right?

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student used the commutative property for subtraction. Subtraction does not work in any order. 8 - 2 is 6, but 2 - 8 is not possible with whole numbers.**

Correct answer: **No. Subtraction does not change order.**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

? + 6 = 13. Student's answer: 19

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 6 and 13 instead of subtracting. The missing addend is 13 - 6.**

**Correct answer: 7**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

8 + ? = 15. Student's answer: 23

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 8 and 15. The missing addend is 15 - 8.**

**Correct answer: 7**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

? + 3 = 10. Student's answer: 13

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 3 and 10. The missing addend is 10 − 3.**

**Correct answer: 7**

# Find the Error

Grade 1 · 1.OA.5

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Count on 2 to find 7 + 2. Student says 'seven, eight.' Answer:

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student counted on only 1. Counting on 2 from 7 means saying 'eight, nine.'**

**Correct answer: 9**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Count on 3 to find 5 + 3. Student says 'five, six, seven.' Answer:

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student counted correctly to seven but answered 6. The answer is the last number counted.**

**Correct answer: 8**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Count back 2 to find 9 - 2. Student says 'nine, eight, seven.' Answer:

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student counted back correctly but gave the number before the last one. The answer is 7.**

**Correct answer: 7**

# Find the Error

Grade 1 · 1.OA.6

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Solve 9 + 6 by making 10: 9 + 1 = 10, then 10 + 4 = 14. Answer:

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student split 6 into 1 and 4, but it should be 1 and 5. Then 10 + 5 = 15.**

Correct answer: **15**

# Find the Error

Grade 1 · 1.OA.6

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Solve 13 - 4 by using 10: 13 - 3 = 10, then 10 - 1 = 8. Answer:

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student subtracted 4 but split it incorrectly. 13 - 3 = 10, then 10 - 1 = 9.**

**Correct answer: 9**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Solve 8 + 7 by making 10: 8 + 2 = 10, then 10 + 4 = 14. Answer:

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student used 4 instead of 5. 7 = 2 + 5, so 10 + 5 = 15.**

Correct answer: **15**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Is 4 + 3 = 7 true or false? Student's answer: false

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student said false. Both sides of the equal sign have the same value, 7.**

Correct answer: **True**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Is 9 = 9 true or false? Student's answer: false

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student thought both sides had to look different. Both sides are the same, so the statement is true.**

Correct answer: **True**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Is 5 + 2 = 8 - 1 true or false? Student's answer: false

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student did not compute both sides. 5 + 2 is 7 and 8 - 1 is 7, so the statement is true.**

Correct answer: **True**

# Find the Error

Grade 1 · 1.OA.8

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

? + 4 = 11. Student's answer: 15

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 4 and 11. The missing number is 11 - 4.**

Correct answer: **7**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

9 - ? = 3. Student's answer: 12

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 9 and 3. The missing number is 9 - 3.**

**Correct answer: 6**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

? - 5 = 6. Student's answer: 1

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student subtracted the wrong way. The missing number plus... we need a number that minus 5 gives 6, so add 5 to 6.**

Correct answer: **11**

# Find the Error

Grade 1 · 1.NBT.1

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Count from 98 to 102. Student's work: 98, 99, 90, 91, 92

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **After 99, the student wrote 90 instead of 100. The student did not move to the next hundred.**

Correct answer: **98, 99, 100, 101, 102**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Count from 109 to 113. Student's work: 109, 110, 111, 112, 210

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student wrote 210 instead of 113. The last number should be 113.**

Correct answer: **109, 110, 111, 112, 113**

# Find the Error

Grade 1 · 1.NBT.1

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Count from 114 to 120. Student's work: 114, 115, 116, 117, 118, 119, 110

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student wrote 110 instead of 120. The student reset the tens digit.**

Correct answer: **114, 115, 116, 117, 118, 119, 120**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Write 34 as tens and ones. Student's answer: 3 ones and 4 tens

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student swapped tens and ones. 34 has 3 tens and 4 ones.**

Correct answer: **3 tens and 4 ones**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

How many tens are in 57? Student's answer: 7

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student gave the ones digit. The tens digit in 57 is 5.**

Correct answer: **5 tens (and 7 ones)**

# Find the Error

Grade 1 · 1.NBT.2

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Write 80 + 6 as a number. Student's answer: 68

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student wrote the 6 in the tens place. 80 + 6 is 8 tens and 6 ones.**

Correct answer: **86**

# Find the Error

Grade 1 · 1.NBT.3

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Compare 46 and 64. Student writes: 46 > 64

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student used the wrong symbol. 46 has fewer tens than 64, so 46 is less.**

Correct answer: **46 < 64**

# Find the Error

Grade 1 · 1.NBT.3

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Compare 73 and 37. Student writes: 73 < 37

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student used the wrong symbol. 73 has more tens than 37, so 73 is greater.**

Correct answer: **73 > 37**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Compare 58 and 58. Student writes: 58 > 58

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student used the greater-than symbol for equal numbers.**

Correct answer: **58 = 58**

# Find the Error

Grade 1 · 1.NBT.4

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Add 23 + 5 with a model. Student's answer: 25

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 2 instead of 5. 23 + 5 is 28.**

Correct answer: **28**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Add 40 + 16. Student's answer: 46

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 40 + 6 and forgot the 10 in 16. 40 + 16 is 56.**

Correct answer: **56**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Add 34 + 30. Student's answer: 37

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 3 instead of 30. Add 3 tens to 34 to get 64.**

Correct answer: **64**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

What is 10 more than 34? Student's answer: 35

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added 1 instead of 10. Adding 10 changes the tens digit.**

Correct answer: **44**

# Find the Error

Grade 1 · 1.NBT.5

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

What is 10 less than 62? Student's answer: 61

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student subtracted 1 instead of 10. Taking away 10 changes the tens digit.**

Correct answer: **52**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

What is 10 more than 79? Student's answer: 80

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student added only 1. Ten more than 79 is 89.**

**Correct answer: 89**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

80 - 50 = ? Student's answer: 40

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student subtracted incorrectly. 8 tens minus 5 tens is 3 tens.**

Correct answer: **30**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

90 - 40 = ? Student's answer: 60

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student subtracted 30 instead of 40. 9 tens minus 4 tens is 5 tens.**

**Correct answer: 50**

# Find the Error

Grade 1 · 1.NBT.6

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

60 - 20 = ? Student's answer: 20

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student subtracted incorrectly. 6 tens minus 2 tens is 4 tens.**

Correct answer: **40**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Put these pencils in order from shortest to longest: A (5 in), B (3 in), C (4 in). Student's answer: A, B, C

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student did not compare the lengths correctly. B is shortest, then C, then A.**

Correct answer: **B, C, A**

# Find the Error

Grade 1 · 1.MD.1

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Ribbon A is longer than ribbon B. Ribbon B is longer than ribbon C. Student's answer: C is the longest.

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student reversed the order. C is the shortest because B is longer than C.**

Correct answer: **Ribbon A is the longest.**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Order from longest to shortest: tall tree, short bush, medium fence. Student's answer: short bush, medium fence, tall tree

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student listed the order from shortest to longest. Longest to shortest is tree, fence, bush.**

Correct answer: **Tall tree, medium fence, short bush**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

A pencil is 5 paper clips long. Student's answer: 4

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student did not count all of the paper clips. The pencil is 5 clips long.**

**Correct answer: 5**

# Find the Error

Grade 1 · 1.MD.2

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

A line is 7 cubes long. Student counts 6 cubes. Answer:

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student missed one cube when counting the length. The line is 7 units long.**

**Correct answer: 7**

# Find the Error

Grade 1 · 1.MD.2

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

A ribbon is 9 paper clips long. Student's answer: 8, because the first clip is not counted.

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student did not count the first clip. Every unit counts toward the length.**

**Correct answer: 9**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

The clock shows 3:00. Student's answer: 3:30

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student read the half hour. The minute hand is on 12, so it is 3:00.**

Correct answer: **3:00**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

The hour hand is on 7 and the minute hand is on 12. Student's answer: 12 o'clock

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student read only the minute hand. The hour hand is on 7, so it is 7 o'clock.**

Correct answer: **7 o'clock**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

The hour hand is on 4 and the minute hand is on 6. Student's answer: 6:00

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student read the minute hand as the hour. The hour hand is on 4, and the minute hand on 6 means half past, so it is 4:30.**

Correct answer: **4:30**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

A survey: 5 students like apples, 3 like bananas, 2 like grapes. Which fruit do most students like?

Student's answer: bananas

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student picked the wrong category. Apples has the most votes with 5.**

Correct answer: **Apples (5 students)**

# Find the Error

Grade 1 · 1.MD.4

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

A tally chart: dogs 4, cats 6, fish 1. How many cats? Student's answer: 4

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student read the dog count. The cat count is 6.**

Correct answer: **6 cats**

# Find the Error

Grade 1 · 1.MD.4

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

A chart: red 7, blue 5, green 3. How many more blue than green? Student's answer: 3

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student gave the green count. The difference is 5 - 3 = 2.**

Correct answer: **2 more**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Student says a rectangle has 3 sides. Is this right?

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student counted the sides wrong. A rectangle has 4 sides.**

Correct answer: **No. A rectangle has 4 sides.**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Student says a triangle has 4 corners. Is this right?

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student counted the corners wrong. A triangle has 3 corners.**

Correct answer: **No. A triangle has 3 corners.**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Student says a square can have 3 sides. Is this right?

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **A square always has 4 equal sides. Three sides would make a triangle.**

Correct answer: **No. A square has 4 equal sides.**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Put 2 squares together. Student says: 'It makes a triangle.'

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **Two squares side by side make a rectangle. They do not make a triangle.**

Correct answer: **A rectangle**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Build a cube from 4 squares. Student says: 'The cube is finished.'

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **A cube has 6 square faces. Four squares are not enough.**

Correct answer: **No. A cube needs 6 square faces.**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Make a hexagon from triangles. Student uses 5 triangles and says: 'It is a hexagon.'

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student used too few triangles. A hexagon made from triangles needs 6 triangles.**

Correct answer: **6 triangles**

# Find the Error

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Divide a rectangle into 2 equal parts. Student's drawing has one part much bigger than the other.

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student made two parts that are not the same size. Halves must be equal.**

Correct answer: **Make 2 parts that are the same size.**

# Find the Error

Grade 1 · 1.G.3

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

Divide a circle into 4 equal parts. Student draws 3 parts and says 'quarters.'

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **The student made 3 parts. Fourths need 4 equal parts.**

Correct answer: **4 equal parts (fourths)**

# Find the Error

Grade 1 · 1.G.3

Name: _____ Date: _____

Analyze the student's work below. Identify the error, then solve the problem correctly.

A rectangle is cut into 4 pieces of different sizes. Student says: 'These are fourths.'

**1.** What did the student do wrong? Why do you think they made this error?

**2.** Solve the problem correctly. Show all of your work.

The error: **Fourths must be equal in size. These pieces are not equal.**

Correct answer: **No. Fourths must be equal.**
